

# Public Notice of Blasting Operations

Haines Highway Reconstruction Project

MP 3.9 to 12.2- Ph 1

Southeast Roadbuilders will begin blasting operations along the Haines Highway beginning April 2018. Blasting will occur throughout the summer, and blasting activity will occur likely between mid-morning and early afternoon. The current blasting area is between MP 10 and 12 of the Haines Highway. During the time of blasts, flaggers will hold traffic a safe distance from the blast for up to two hours. Please visit the project website or call the hotline for information on upcoming blasts.

The following warning signs will be used during the blasting operations:

1. Five minutes before the blast a series of long signals will be made from an airhorn.
2. One minute before the blast a series of short rapid signals will be made from an airhorn.
3. An all clear signal of one steady long signal will be made from an airhorn to signal the site has been inspected and the blasting operation is finished.

Please call the project hotline @ 907-314-2215 or visit the project website @ [www.haineshwy.com](http://www.haineshwy.com) for more information.
